***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance:

Claims 1-20 are allowable over the prior art of record because the prior art of record does not teach or suggest the entire combination of elements of the material dispenser system set forth including a material dispenser system for dispensing elongate material from a spool, comprising: a first prong including a first jaw, a first shoulder, a first body extending between said first jaw and said first shoulder, and a first handle on an opposite side of said first shoulder; a second prong including a second jaw, a second shoulder, a second body extending between said second jaw and said second shoulder, and a second handle on an opposite side of said second shoulder; and wherein said first prong and said second prong are connected together opposite of said first jaw and said second jaw. None of the references of the prior art teach or suggest the dispenser as advanced above and such do not provide the necessary motivation, absent applicant's specification, for modifying the dispenser in the manner required by the claims..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Art Unit: 3654
